Assessor Comments	A line of 20 Speckle Park X Holstein Cows, in calf to the Angus bull. These 4 year old vealer mums have recently had their first calf weaned off them, of which they appeared to do an excellent job on given the current seasonal conditions. They are back preg tested in calf to the Cornerstone Angus Bull for a spring calving pattern. Very easy cattle to handle during assessment. They are up to date on health treatments & are only offered due to the dry season.
