Assessor Comments	Holm Point Grazing will offer a great neat line of 14 x 14 NSM Heifers with calves at foot. These Murdeduke blood breeders, all calved down unassisted to Murdeduke KRAKATOA Q318. Averaging 463kg at assessment, these young matrons are putting everything into their progeny in a very challenging season. Well handled cattle that will compliment a herd nicely. Calves are marked, NLIS tagged and had their first 7in1 vaccination. Two white udders. One heifer with very small eye scar from weaning.
