Handled With	Bikes , Vehicles

Assessor Comments	A nice little line of weaned Angus heifers. Bongongo blood heifers that are well weaned and their temperament was a real highlight, exceptionally quiet. This line presents with a tail removed. These weaners are usually retained until the springtime but need to be moved on as the season tightens. Cattle appear to be healthy and on the do and will perform well on quality feed. Heifers would make great grass eaters for anyone to fatten or alternatively have good genetic merit to retain and breed from. Heifers Black Baldy and Angus brothers also offered in same sale.
