Assessor Comments	Rennylea blood 30-32 month old (Spring '22 drop) heifers that have just weaned their first calf and weighed 351kg full (301-446kg) at assessment. These young females are absolute coat hangers being the perfect article to turnover quickly on feed or to rejoin. Sample mouthed, being either 2 / 4 tooth. The Trewalla cattle are always highly sought after by backgrounders and finishers due to their high growth rates and quiet temperament. They are Grassfed and Antibiotic free eligible being both Greenhams Never Ever and Teys Grasslands Accredited. Excellent quality heifers that will absolutely explode on feed. Please note; vendor will load a full B-Double with whatever fits comfortably. Approx 10% old eye scar in one eye.
