Assessor Comments	Opportunity to acquire a large run of pure Rennylea Angus blood steers. The Hearn Family is offering 268 weaned & vendor bred steers in today's sale. These steers are normally carried though the spring and grown out to heavy feeder weights at 14-18 months of age. This lot of 41 steers is the lightest draft of steers on offer today that were all individually weighed from 226kg-274kg to average 253kg with a tail removed at assessment. They are 9 months of age. Bulls are strictly selected for high 400 day growth & high IMF as well as visually must have stretch and depth. Noted performing steers that are sort after by repeat buyers and are only being offered this early is due to the prolonged dry season.
