Health Treatments	Drenched	28/02/2025	Bomectin Injectable
	Vaccinated	28/02/2025	Ultravac 5 in 1 Booster
Eligibilities	Russian Eligible Saudi Eligible PCAS Eligible		

Vendor Comments	Only selling due to exceptional dry conditions, normally retained for Grassfed Kill Cattle or Heavy Feeders
-----------------	---

Temperament	Muscle Score		
	C	100%	
	Yards	Crush	Paddock
	Quiet: 110 head Slightly Stirry: 5 head	Quiet: 90 head Slightly Stirry: 25 head	Temperament not assessed in Paddock

Steers were a little flighty in the yards when first handled and moved around a bit on the scale platform but quickly settled once back with their mates. Cattle are not flighty or mad and will certainly improve with more handling

Handled With

Bikes , Vehicles

Notable Traits

Traits

1 Head Birthmark on Near Side Rump - See Comments & Photos
31 Head Pinkeye Scarring - See Comments & Photos
30 Head Slight Ringworm on Cattle, Clearing Up

Assessor Comments

2nd Draft of the Cottrell Ag Steer Weaners offered in todays sale. Calves present well considering there has not been decent rain the last 9 Months. All Calves are within a 55kg weight range weighing between 250kg & 305kg at Assessment. Steers that are traditionally never sold at this age & weight, always going on to a high value MSA Graded Grass Kill or Heavy Feeders. Off grass the vendors consistently hit the top of the grid with the majority of their cattle and they have a solid history of performance at the feed yard. Out of a medium to large frame herd of Dunoon blood Cows these steers can be delivered with a PCAS non-certified supplier declaration upon request. There were 31 Steers noted at Assessment with old Pinkeye scarring but still had sight in the affected eye. None of the Pinkeye were active, and will be checked at delivery. There was also a small amount of Ringworm that appeared to be clearing up and 1 Steer had a Birthmark on Near side Rump, See photos for examples.
