Assessor Comments	19 x Angus & Angus X Steers with bone, body and ideal carcase traits. Soft skinned, easy doing steers with a great temperament that are ideal to put away until after the Spring. Genuine 7-8 month old weaners, properly weaned that present in good order considering challenging seasonal conditions for the majority of these calves lives. Grass fed declaration available upon request. One steer was noted at Assessment with an old small pinkeye scar in one eye, but still had full sight & would pass a feedlot inspection, see last photo. Calves that have been well regarded by previous purchasers and should not disappoint.
