	Good Heifers to handle in the yards the odd one played up a bit in the crush, nothing unusual there. They had just been					

Handled With	drafted off the cows. Typical weaners, overall well handled cattle Bikes , On foot , Vehicles
Assessor Comments	A tidy line of well bred Heifers that have a good start in life and are on the move. These Heifers have topped the Braidwood weaner sales in past years. They are in fresh condition and have the conformation to make for ideal breeders or alternatively go forward on grain or grass.NOTE for breeders in Theileria prone areas , these Heifers have had generational exposure so would be carrying a degree of natural immunity. They are out of big roomy cows there is a weight variance but this is age not quality related. tail has been taken out and the odd smaller one that appears in the video is not in the assessment. There is a lot of Steers from this breeder in this sale as well . There is also another two lots from the adjoining property also in this sale if the purchasers wish to make up trucks. We can organise local trucks if required.
