	Very easy Heifers to handle nothing played up in the crush or in the yards. You can walk around them in the paddock. Came off the cows easily, overall well handled cattle.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Very good quality heifers that have had no setbacks and are on the move. Heifers that will continue to go forward on grain or grass, alternatively they would make ideal breeders. NOTE for breeders in Theileria prone areas, these Heifers have had generational exposure so would be carrying a degree of natural immunity. They have been in the front lane of the Braidwood weaner sales in past years. There is variance in the weights due to a protracted calving the difference is age not quality related. Note due to the lack of spare dry yards the video/photos show both the steers and heifers together, the heifers have yellow ear tags and the steers white. The tail has been taken out and the smaller heifers that appear in the video are not in the assessment. Access is truck and dog, if the buyer needs to use a semi, we can organise something, we can organise local trucks if required. This breeder has another lot of Heifers in this sale as well as two lots from an adjoining property.
