All Heifers were good to handle throughout assessment. Just showing a few nerves when in closer proximity to the handler.

Handled With	All led up the race well and stepped on the scales sensibly. Cattle that have not been over handled and will only continue to improve with further education. Bikes , Dogs , On foot , Vehicles

Assessor Comments	Very nice line of young Angus Heifers to take on. The McEvoy family have been breeding Angus cattle for over 25 years, using the Alpine Angus genetics for the better part of 12 years, with the more recent introduction of Jarabee Angus to further source preferred traits, maternal traits being mainly Birthweight & Milk, with a focus on Feet, EMA & 200DW. This lovely line of heifers have the shape, style and genetics to make an ideal moderate framed future breeder, or alternatively, with their little mouths and small appetites, they'd suit to tick along and target a feeder or supermarket job down the track. 100% grass Fed & Antibiotic Free. Please Note. Vendor has another 26 Steers in the sale. Please see photos & video for full contentment.
