	Steers were generally very good to handle and draft off their sisters to be weighed and assessed. All led up the race well. A few getting a bit anxious on the shiny, noisy aluminium scales, listed above as slightly stirry. Steers that will only continue to improve with education and handling.

Assessor Comments	Very nice line of young Angus Steers to take on. The McEvoy family have been breeding Angus cattle for over 25 years, using the Alpine Angus genetics for the better part of 12 years, with the more recent introduction of Jarabee Angus to further source preferred traits, with a main focus on Feet, EMA & 200DW. This lovely line of steers have the shape, style and genetics to target any chosen market, and with their little mouths and small appetites, they won't eat you out of house & home whilst pushing through this Autumn/Winter period. 100% grass Fed & Antibiotic Free. Please Note. Vendor has another 18 Heifers in the sale. Please see photos & video for full contentment.
