Assessor Comments	Tops of the Well Renowned BASSANO steers. These steers are well grown for their age, they had a reasonable spring but it has been a very dry Summer/Autumn for this area but have come through at similar weights to last year. Impeccably bred steers to grow on to feedlot weights, or bullocks, have performed very well in the past as they have a ton of breeding and doing ability. Note two lots in sale, to total 81 steers. Weaning, handling , facilities, animal health and breeding are all done to a very high standard. This mob weighed from 290 to 376 kg to ave 308 kg at delivery. Steers being fed Ad lib Silage and Hay in yards for 5 days prior to being let onto dry Autumn pasture with ad lib hay till delivery. No warts, ringworm or eye issues with any of these steers. NB 63 HBR and APR Sisters in this sale
