Assessor Comments	An outstanding line of 683 cross bred lambs. Weaned early straight into the feedlot. Being fed only Milne Feeds - LambGRO pellets. Currently gaining 310gms per day.These lambs have performed extremely well for their age and conditions showing great shape and freshness. Bred out of large frame Outback MPM blood merino ewes, we have always had great feedback on the cross bred suckers and wether lambs purchased off the Pfitzner family farm. Shown the right conditions these lambs will continue to go forward and are the type to grow into heavy export weights.
