Vendor Comments	Sadly we will have to sell these lambs at this weight due to our seasonal conditions. We have heavily invested in quality genetics over the years , which enable us (in an average year) to take these lambs onto heavy export weight lambs.
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	Sadly my client will have to offer these well bred XBL up to graziers again this year, this client has been buying the biggest , highest indexed white suffolk rams from Harrys Well white suffolk stud (which is renowned for their well doing in tough conditions) and putting them over very large framed Sandalwood Poll merino ewes, these lambs come with the highest recomendation from myself, as in the past (with feed) we have been able to turn these lambs off as 26/28 dw kg suckers at 5 months. Whilst these lambs are lighter than the other mob in the sale , they will still perform for the purchaser . . I believe that most of the lambs have weaned themselves but will be put back with the mums until delivery.
