Other Health Information	please note about 20% of this line had been affected by cowpea aphid. They are on the improve now and back eating normally again but are showing some scarring from it unfortunately. Please see photos.			
Vendor Comments	Annual draft of xb sucker lambs, had a tough start due to drought conditions but they are moving forward since early weaning.			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
	Quality Grades		Wrinkle Score	
	Very Good	100%	Light	100%
Assessor Comments	A very good run of vendor bred Lambs, Annual sale of lambs which have had a bit of a tough start to life due to the seasonal conditions but These Lambs will perform well on good feed and are already grain trained so the hard work is done, they are weaned and ready to grow out to export weights if so desired. There is 1530 in the line up which will be split in halves run out the gate at delivery, the bottoms have been removed so what a great opportunity to secure a large run of lambs from one vendor. Please note as shown in the photos a % of these lambs have some scaring from Cowpea aphid which they are over but the after effects of it is still showing. Bid with confidence that these lambs will perform as previous buyers have found.
