Assessor Comments	*Flock Dispersal* On offer are 49 SIL Australian White Ewes. The Valusiak family have been breeding Australian White sheep, Highveld bloodlines solely for 10+ and have got to the point of having a nucleus flock, selling their own high quality A/W rams, the best of which, are joined to this article. The true highlights of these ewes are their fertility and ability to carry and keep their condition running just on native and improved pastures, highlighted by their majority four-score condition. A rare opportunity to step in or add on to any existing shedding sheep operation.
