Assessor Comments	Buyers on offer are a very good quality line of 100% Primeline maternal ewe lambs. These ewes offer a very good genetic base as the vendor has been on this bloodline since 2007. These breeders are the results of the continued development in the self replacing prime lamb production model and come with strong recommendation. These ewes were part of a mob joined to Lambpro Primeline maternal rams. This draft of ewes were all SIL for singles. A large tail was removed prior to joining. Ewes present in forward condition and display all the quality traits associated with this bloodline. Buyers please call with any questions.
