Assessor Comments	A good to very good quality line of vendor bred EU Angus and Angus x Heifers. They are medium to large frame and suit to take directly onto feed for the domestic market. They are grain and antibiotic free and would also be eligible for a pasture finished program. The top 44% would make very good quality future breeders and should turn into large framed cows. Vendor has an extended but not continuous calving and has multiple paddock based weanings each year. They are sired by stud bulls from Te Mania and Dance Angus. Please note six heifers have slight blue eye scaring in one eye and two with mild blue eye in one eye, not seen as detrimental. Approx three heifers have slight hair loss around the eyes and face. The heifers are unjoined and have been vet preg tested 100% NDP for buyers confidence. These are quality heifers which are nice and soft in the coat and suit a range of high quality grass or grain markets.
