Assessor Comments Lead of 103, a very good quality line of predominantly Poll Hereford Steers Grain and antibiotic free, with 4 included out of Black Baldy cows. All Poll Hereford sires being some of the lead of the catalog from Rayleigh, Oldfield and Mountain Valley studs. Steers inspect and handle beautifully with the large investment in sires very evident in the quality of this progeny. Steers are averaging 0.9 kg per day overall being the ideal gain to go ahead on better pasture or grain with unused compensatory growth. Vendor has their sisters same sale.
