Paddock

These heifers were easy to handle in yards. The heifers did tend to want to mob up and circle in yards. Cattle were not

stirry just suggest that prior handling practices may have been more station handling in larger mobs etc. Cattle were settled in the crush and race.

Notable Traits

Traits

3 Head Blue pinkeye scarring (light)
1 Head Small vaccination lump/ scarring on neck
6 Head White marking on or in front of udder (approx number)

Assessor Comments

A line of quality, weighty type Angus heifers that really weighed well for their condition score. These heifers were purchased from southern Victoria as vendor bred heifers. Given a crop or grain feed these heifers would weigh like lead. A great finishing prospect or a line of females that would breed on good weighty characteristics.
