Weaned steers for their first time back through the system yarded up nicely and handled well. No concern here they are well behaved calves. Odd calf got a bit heated but not through inherent aggression. Just simply not understanding the system.

Assessor Comments	Very nice line of steer calves bred in the purple. Sire and dams are 100% Outwest Angus blood. Calves exhibit very good weight for age and are on the do since weaning. These steers wont take long on grain or grass. Settled and well behaved calves that are bred to perform.
