Assessor Comments	56 quality Angus x Friesian steers aged between 5 and 7 months. These calves have been reared on a calf machine from an early age, extremely quiet, well-accustomed to regular handling, and show good temperament—making them ideal for operations focused on ease of management. Being a cross between Angus and Friesian, these steers offer a balance of frame and meat quality, with excellent potential for both grass-finishing and feedlot systems. They are a great option for backgrounding or further growing out. please note steers & heifers photographed together, vendor has other steers & heifers listed
