| Assessor Comments      | 26 Jarabee Angus blood heifers that are 10-11mths of age. Heifers present as all frame and no condition with plenty of compensatory gains to be had. Heifers are light but are fresh in the coat and will perform for the successful purchaser. This lot represents the tops of the drop with no heifers retained and a tail removed at assessment.                                          |
