	Well educated, inquisitive & generally placid to handle only getting fidgety when confined in the race or weigh box. The steers settled quickly when back into the mob, in a narrow yard in the same workspace as I was in for assessing due to yard space they were placid and calm- not agitated or kicking up dust at all, just patiently waiting for another yard to be available. As seen in the videos they are calm & inquisitive when walking among them for photos.

Assessor Comments	#4 Angus / Droughtmaster and Santa / Droughtmaster / D/M cross steers by top Rondel Droughtmaster , Bendalla Santa & Banquet Angus bulls 16-22 months. Very well grown, long body and well muscled steers. Perfectly clean & tidy heads. Due to insufficient yard space the photos are taken as the whole mob of 201 with the heavier feeder steers (398-528kg av: 434kg) and the backgrounding steers 316-398kg av:368kg boxed together. The steers will not disappoint - for assurity please feel free to call.
