Health Treatments

Other Treatment

07/07/2025

Mectec LV (pour on)

Chemical Residue

Clear - No known history.

Eligibilities

PCAS Eligible

Vendor Comments

A normal turnoff but only selling due to the expiry of the lease on this property.

Temperament	Yards	Crush	Paddock
	Quiet: 105 head Slightly Stirry: 11 head	Quiet: 113 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
	Steers considering they have only just been weaned were actually very good to handle in all areas of the yards. In the bigger yards there were some ring leaders that still have a small amount of trot in them which is quite normal and makes the balance follow the leader a bit.		
Handled With	Bikes , Horses		
Notable Traits	Traits 1 Head Fly rub neck		
Assessor Comments	Buyers a line of PCAS ELIGIBLE Composite weaner steers that are mainly flat back types and should be ideal to suit to background to heavier weights to target export feeder entry weight specifications. The bulls used to breed these are a flat back type so as a consequence not a lot of hump/ear visible but the video will be a good guide on content. These have only been off the cows for about 5 days and have already settled down very well temperament wise. I would suggest most of these have been self-weaned by their mothers and a result would envisage good compensatory weight gain provided they go onto some improved pastures or oats crops. All up at the property there are about 450 weaners being offered in the sale. Pre-treated for ticks.		
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366 Parallel Assessed By : Chris Todd		
Delivery Period	12/07/2025 to 14/07/2025 (3 days)		
Delivery Point	"Tallawalla" yards located approx. 4kms north of Bluff or 24kms east of Blackwater. Lat: -23.5590400240811 "S Lng149.049639064372 " E
