Eligibilities	PCAS Eligible		
Temperament	Yards	Crush	Paddock
	Quiet: 98 head	Quiet: 94 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
	These weaners have been handled properly with the right fundamentals using low stress stock handling. They have been tailed daily and also run through the yards daily. You can definitely see that in the yards that they have been handled very well. Very easy to walk around and have been educated to the best off their ability. Would advise the purchaser to allow sufficient time for these to settle on arrival before they are shown the "bush gate".		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot		
Assessor Comments	Buyers, a line of good to very good quality quality crossbred weaner steers that are available. They show good growth and weight for age considering they are only 6-9 months old. They stand on good bone, especially the Euro cross steers with plenty of muscling. These are suitable for restockers to background up to heavier export feedlot entry weights. If buyers have tipped out heavy feeders recently and need them replaced, then look no further. They would be highly suitable for producers in S/W Qld with the fantastic seasonal conditions at their disposal. They have been very well weaned and are super quiet to handle so and I think they would hit the ground running on the excellent coverage of winter herbage at their disposal. For locals there will be only modest freight costs to factor in when purchasing. They presented in excellent health and don't look to have suffered any setbacks at any stage of their life to date. Well worth a look. These were weighed after a 16 hour dry curfew.		
Assessor	Bob Jakins (Level 1 Accredited) Parallel Assessed By : Jack Kidd		
Delivery Period	12/07/2025 to 15/07/2025 (4 days)		
Delivery Point	"Coolbinga" yards, 37kms east of Quilpie and 173kms west of Charleville on Diamantina Dev. road. Lat: -26.613996336509 "S Lng144.611698957889 " E
