Handled With			Stirry: 3 head	
	Cattle handled well at assessment with a large majority a pleasure to handle only a small portion of the draft showed signs of typical weaner cattle becoming nervous under pressure but fine once released with the mob. A good line of quiet steers.			
	Aerial (Helicopters, gyro's and planes) , Bikes			

Notable Traits	Traits 2 Head patch of white around scrotum/ under belly 4 Head ringworm mark
Assessor Comments	Buyers, This is a well bred line of top quality weaned Angus steers that possess plenty of desirable carcass attributes standing on good bone and showing an abundance of length and depth that have great weight for age. The steers are bred out of medium to large frame Angus cows and sired by top Booroomooka & Raff stud Angus sires. These steers are soft easy doing animals that would make terrific feeder cattle in no time if given the opportunity to grow out on good grass country or winter crop. The cattle worked freely in the yards and were very good to handle. Cattle are Grass only eligible & Antibiotic free. Please note that the vendor is offering a large line of Angus steers and a very nice line of the Angus females in the same auctions plus sale.
Assessor	Jack Hannah (Level 1 Accredited)
