Assessor Comments

Buyers, This is a well bred line of top quality weaned Angus heifers. Please note that the vendors have not kept any of this years heifers due to being excess to requirements, therefore you can bid with confidence knowing there has been no females retained. These heifers show all the right attributes to growing out into top shelf Angus females that will breed on for years. These heifers have a wealth of genetics behind them and it's no surprise that they display very good weight for age showing good bone and length while still remaining very feminine. The cattle worked freely in the yards and were very good to handle. Cattle are Grass only eligible & Antibiotic free. Please note that the vendor is offering a deck lot of heavier Angus steers and a very nice line of lighter weight Angus steers in the same auctions plus sale.
