Assessor Comments	A good to very good quality line of mostly Angus & Hereford heifers. These heifers were purchased out of Wodonga, Yea & Euroa weaner sales in early January. Heifers are ideal to take directly onto feed or the top 40% would suit to join as future breeders. Three heifers with slight blue eye scarring in one eye. Two heifers with warts on the face & another three heifers with small ring worm marks on the face/neck. Heifers were assessed and photographed at separate yards and were later put together at 'Melon Ridge', where they will remain until delivery. Heifers were preg tested by a vet 09/07/25, 100% NDP and all were needled with Prostaglandin to ensure NIL pregnancies. A certificate is available.
