Comment on Fat Score 1 Cattle

Cattle are in strong condition and would handle a ling travel.

Vendor Comments	Steers are usually kept to heavier weights and sold straight to the feedlot. Great quality steers that are thick and heavy boned, cattle that are ideal for a long fed program.			
Temperament	Yards	Crush	Paddock	
	Quiet: 16 head	Quiet: 16 head	Temperament not assessed in Paddock	
Handled With	Steers were very quiet to handle in and around the yards and would suit some one who could only handle quiet cattle. Bikes , Dogs , Vehicles			
Assessor Comments	A neat line of good quality backgrounding steers, just shy of entry weights to the feedlot that offer a quick trade if needed or			

take right through to the heavier end of the feeder grid. Cattle would also suit to grow out to grass bullocks, steers are showing a lot of thickness and are good heavy boned cattle with plenty of length. Steers are well bred from herd of large frame cows and were sired by A Son of SAV America 8018. Steers have been doing really well on the oats but unfortunately the crop has cut out early, ideal cattle to go back on to crop for a quick trade. Please see a line of backgrounding heifers from the same vendor in this same sale.
