| Assessor Comments      | This is a group of unweaned steers that will excel and meet a wide range of markets. Their breeding indicates that will thrive on grass or grain. Half of these steers have been running on improved high country (they are well grown and fresh condition), and the other half on river flats that have been flooded regularly since Mid May 2025. This assessment was done at two sets of stockyards (photos and videos show this). All these steers are bred to perform - sired by Knowla and Texas sires. The steers that have been running on the river country are looking for some sunny days - however they are all frame, bone and length with no condition. All these steers have clean coats, good quality, and huge upside. Easy steers to handle and will get better. Perfect to go onto crop. They are all up to date with vet treatments. Vendor Bred, Antibiotic Free and Grass Fed. Vendor has 20 heifers in same sale. |
