Fair	10%				

Temperament	Yards	Crush	Paddock
	Quiet: 19 head Slightly Stirry: 1 head	Quiet: 18 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	These heifers were very easy to handle. Flowed through yards and over the scales with no fuss.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 2 Head Slightly cloudy eye - not detrimental		
Assessor Comments	These unweaned heifers are very much future breeders or should feed well to meet domestic or export slaughter markets, crop or grain. They have a wealth of genetics in their breeding including Knowla, Texas and Temania bloodlines. Half of these heifers have been running on improved high country (they are well grown and fresh in condition), and the other half on river flats that have been flooded regularly since Mid May 2025, (despite this they are really doing well). They are all frame and plenty of growth. This assessment was done at two sets of stockyards (photos and videos show this). All these heifers are displaying all the traits that are expected of the Angus Breed - length, bone, shape and softness. All these heifers are going to thrive coming into the warmer months ahead of us. These heifers are an investment going forward into the future. Vendor Bred, Antibiotic Free and Grass Fed. Vendor has 25 steers in same sale.
