Assessor Comments	19 quality steers bred from large framed Angus cows. Averaging 333 kg at assessment these steers show good growth for age and plenty of constitution. They are backed with genetics with vendor purchasing the top sires annually at 'MYANGA' Angus bull sale, and this is proven through the shape and quality of these calves. They were good to draft and run through the crush for weighing and will benefit from further handling in the yards. They were paddock weaned on the 17/3 and are doing well on a wheat crop. These calves will power ahead on crop or feed to large bullocks give the opportunity. Buy with confidence.
