Assessor Comments	11 Angus heifers bred from large framed Angus cows. Averaging 327kg full at assessment these heifers are really on the do, running on an advanced oat crop. They were good to draft and run through the crush for weighing and will benefit from further handling in the yards. They were paddock weaned on the 17/3 and although are a small line they would most intend jobs. These calves will continue to power ahead on crop or would convert well to feed given the opportunity. Buy with confidence.
