	Steers moved efficiently through the yards during assessment process. The odd steer wanted to push forward in the race while being weighed. When applying force to them as a whole mob some steers were flighty but then walked calmly between pens for the video and were happy in the paddock when taking photos.

Steers are 9 - 11 months old and weighed 263kg full at assessment. Calves are up to date with all their animal health treatments and have been since birth. The 'Weowna' herd is KO, Aristocrat and Alloura Blood with a focus on high IMF and growth in bull selection. Standing on plenty of frame, these steers are fit and healthy but not carrying any excess condition. The "Weowna" steers are renowned performers with buyer returning annually.
