Assessor Comments	A very good line of 62 x Aug/ Sept 2024 Drop Angus Heifers. By Hazeldean and Te Mania sires out of Hazledean Blood and Team Te Mania cows, the heifers present well as a group and provide buyers with the opportunity to retain as future breeders or background for feeder or processor markets. Weaned in late March, the heifers have had their second 7 in 1 and a Doramectin drench. The heifers are in forward store to forward condition and will continue to grow into large frame breeders. Currently grazing a wheat crop, they exhibit very good weight for age and if desired could be joined straight away. Euroka Pastoral focus on breeding fertile, large framed cows with a focus on growth and carcase attributes. The heifers are well educated and handle well in the yards.
