Temperament	Yards	Crush	Paddock
	Quiet: 49 head Slightly Stirry: 5 head	Quiet: 43 head Slightly Stirry: 10 head	Temperament not assessed in Paddock

Stirry: 1 head

Stirry: 2 head

As a whole they handled very well for heifers that haven't had a lot of handling. A small % of animals agitated in the crush at weighing. The vast majority being quiet in the yards & crush. Approx 10% with a little bit of run in a larger yard.

Assessor Comments

Dunoon & Rennylea Blood Autumn '24 drop Angus heifers from an excellent herd. These heifers present in genuine store condition and offer more frame than weight suggests. Heifers with a lot of upside and offering multiple options to join, trade or fatten in what is a very promising outlook for the beef market. Big Springs have been using Dunoon & Rennylea genetics for 30 years, with a focus on growth (400 and 600 days), IMF and grass/ grain indexes. These cattle are from a herd with a very good reputation for marbling & performance and have previously been identified as one of the top 100 beef producers by M.S.A. A 20% tail was removed from the line.
