Vendor Comments	A good line of flatback type backgrounder steers that have been running in Desert upland spinifex type country. Expect these steers to fire ahead on heavier country.

	Steers were good to handle in the yards, they worked well through the yards and crush. There were no signs of aggression from any of the steers although the odd one stirred up when put under pressure or was separated from his mates. Steers were good to handle and inspect in the paddock prior to assessment in the yards.					
	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Vehicles					
Assessor Comments	A good line of mostly medium framed flatback backgrounder steers. A sample of 72 were mouthed with 55 milk teeth and 17 1-2 tooth. Steers have been running in light desert upland spinifex country with some areas of pulled improved country, so expect to see very good weight gains on heavier feed. Steers will suit feedlot backgrounders, we have received positive feedback from previous buyers in the Charleville and Moura districts who were pleased with there results.
