Handled With	Dogs , Horses , Vehicles
Assessor Comments	A line of Angus Heifers sired by Texas Angus Bulls, weighing from 150-260kg to average 217kg after an overnight wet curfew. Heifers were bred in the Rocky River area to the East of Tenterfield and were trucked to the Vendors Tenterfield Property for the assessment. They were agitated throughout the assessment but should settle during the weaning process, due to an extremely wet Autumn and Winter the Vendor has been unable to access the property so the weaners haven't had the usual amount of handling. Heifers are showing signs of self weaning and present in a store condition and well respond quickly.
