Steers were good to handle and moved freely throughout assessment.

Handled With

Bikes , Dogs , Vehicles

Assessor Comments	Well bred line of young angus steers Aug/Sept drop. They display good conformation and are all frame carrying minimal condition. Tight weight 250-300kg at assessment they present quite evenly, stand on good bone and in fresh store condition. Steers are generally taken through to feedlot weights but current season is not in their favour. Offered for genuine sale to make way for breeding females. Vendor also offering a lead line of 25 steers 300-394kg in the same sale. Please call for further information.
