Assessor Comments	Very well bred line of Aug/Sept heifers. They are well grown for their age and represent the vendors 2nd line of females with the tops retained and a visual tail removed. Vendor annually invests heavily in his Angus genetics both through AI and naturally and these heifers are a true example of this. Heifers stand even as a group and in forward store to pushing slightly forward condition. They carry excellent temperament and will mature into soft easy doing females if given the opportunity. Please call for further information.
