	Cattle were very good to handle through the yards and crush. Cattle have had a full weaning over 2 weeks with plenty of paddock work while in hand. Cattle were a pleasure to work through the yards.

Assessor Comments	2 Decks of excellent EU steers. This mob of steers are the younger brothers from previous lot. All steers drafted above 235kgs to a top of 342kgs to average 315kgs curfewed with a tail removed. Out of top quality Angus bulls and from a very good cow herd. These cattle are usually kept through to feedlot and kill weights. These steers being fully weaned and handled are ready to move on good grass or crop. Noted performers with plenty of thickness, length and bone. Don't come to market often at this weight, don't miss your chance. ** Note 2 more lots by this vendor in this sale. Bigger brothers and coloured steers** 9 steers showing ring worm marks. Small % of steers with a red or white influence in coat or white underbelly. See videos to satisfy colour.
