Assessor Comments: VGQ line of 102 vendor bred Angus & Angus cross heifers. These heifers present in strong store condition with a healthy winter coats. Weights ranging from 201kgs - 339kgs to average 250.6kgs. The hard work has been done with these heifers; they have been through a full weaning program early June which included working through the yards and tail out in the paddocks (quiet and easy to handle). They have plenty of style & soft traits, these heifers would be ideal replacement heifers or could be taken through to heavier weights. Please note vendor has another lot of 78 heifers of similar weights in the same sale. They are noted performers & will not disappoint.
