	Heifers have an excellent temperament which was noted through the drafting and weighing process. They calmly moved through the yards with ease. Noted two heifers slight stirry through the weighing process but when returned to the mob were fine.				
Handled With	Bikes , Dogs , Horses , On foot , Vehicles				
Assessor Comments	Good quality line 78 Crossbred weaned heifers. These heifers present in strong store condition with a healthy winter coat. Weights ranging from 194kgs - 340kgs to average 263.8kgs. The hard work has been done with these heifers; they have been through a full weaning program early June which included working them through the yards and tail out in the paddock. They have good bone structure and depth to go with them. Would suit a replacement heifer job or could be taken through to heavier weights. Please note vendor has another lot of 102 heifers of similar weight range in the same sale. These cattle are noted performers & will not disappoint.
