| Assessor Comments                     | A line of Angus Steers with plenty of compensatory gain to be had. These Steers show good frame, depth and length of body. Given the opportunity on good nutritional feed Steers are an ideal article to take through to heavier weights to suit Domestic markets. Please note 2 Steers were noticed at assessment with old scarring on the eye although is not considered detrimental.      |                                                            |                                     |
