Assessor Comments	A B-Double load of EU yearling heifers off the renowned Bolaro Station. Heifers have been weaned since the 15th of April 2024. Bolaro have been using Rennyalea Angus genetics for 10 years with a focus on growth and IMF, targeting Rangers Valley feedlot and other repeat buyers. These are well bred yearling heifers presenting in store condition but will respond well to crop if given the chance. Heifers are EU, MSA, Greenhams Never-Ever & Tey's Grasslands accredited. This lot of heifers have been run hard due to the vendor trying to preserve feed for their older pregnant cows. Would normally be retained and joined but tough season at Adaminaby wont allow.
