Assessor Comments	A very handy line of quality Angus yearling heifers 415kg off the scales that have done exceptionally well on improved pastures and hay through a tough season. Good types with eye appeal showing good solid bone and muscle definition, look to have plenty of room through the pelvis. With very few cattle locally in this weight range these heifers would make ideal future breeders or feedlot/finish to heavier slaughter weights. Have had a 5in1 vaccination and 2x multimin since January 25 and only a couple showing signs of some rubbing, they present as very healthy, clean calves that should do very well given access to grain or Spring pastures.
