Assessor Comments	A solid line of 48 quality Angus yearling steers 379kg off the scales that have done exceptionally well on improved pastures and hay through a tough season. Steers show good solid bone density and heavy muscle definition so with all the hard work done these steers are ideal to feedlot/finish onto heavier slaughter weights. They've had a 5in1 vaccination and 2x multimin since February 25 and only a couple showing signs of some rubbing, they present as very healthy, clean calves that should do very well given access to grain or Spring pastures.
