Assessor Comments	Buyers, the opportunity presents to purchase a very nice line of Angus cows 8 years of age, 2 marks the majority of these cows are Ex "Ollera Station" at Guyra carrying Wattletop genetics and the other line are Ex "Birindi Station" Barraba they are Wattletop & Te Mania genetics. They were purchased as weaners out of the paddock, they have raised a calf every year since. They are in calf to 2 high grade Ben Nevis angus bulls purchased out of the 2024 sale for above sale average. These cows present in fantastic condition considering they have not long had weaners taken off them. They appear to have plenty of life left in them and with the weight they carry they should yield well at the end of their story. 12 cows are preg testing are 5/6 months in calf. 44 are 6/8 months and 4 are 8 months. Buyer has the option to not take the 4 that are 8 months & we will not be loading them if they appear to forward or are trucking a long distance. Odd cow with a blue eye noted, 1 with cap off hip.
