Assessor Comments	A line of 15 Santa PTIC heifers in calf to Santa bulls. Heifers have been station preg tested and are 6-8 months in calf. Purchased out of Blackall Saleyards with the intention of feeding but due to being heavy in calf and due to winter conditions, it was decided to sell. Heifers have a lovely temperament and a great weight for age. Please note the vendor has a lovely line of 8x8 first calf heifers and calves in the sale and also has his vendor bred weaners in the weaner and yearling sale.
